Redefine the user experience

The interior of a lift significantly contributes to the overall architectural ambiance of a building. Similar to any other enclosed space, a lift that is user-friendly, adorned with appealing finishes, adaptable color schemes, intelligent lighting, a harmonious soundscape, and digital media content has the potential to elevate the stature of your building.

We have created predefined lift interior ranges for you to choose from or you can always mix and match between ranges to find the optimal solution.

Build greener

Materials are compliant with LEED low-emitting materials and BREEAM indoor air quality material precondition requirements.

Sustainability as our core value

We choose sustainability every day. Our objective is to be a leader in sustainability – not only in our own industry, but also beyond. We want to help our customers make cities better places to live and be their most trusted partner for them throughout their building life cycle.

Refined

Pleasant continuity through spaces

Durable surfaces with enhanced versatility provide significant value across various building types, spanning from residential homes to retail, offices, and high-rise structures. With a diverse range of elements that can be easily interchanged, there's ample opportunity for mix-and-match customisation to discover the optimal solution for each space.

Soft touch

In search of warm and comforting surfaces to fashion a cozy and welcoming environment, high-pressure laminate emerges as an ideal choice. Renowned for its exceptional durability, this material maintains its desired tactile qualities even with daily usage. Moreover, laminates prove particularly advantageous in optimizing lighting effects to enhance the ambiance further.

Refined design

KONE Interact 20

Our versatile, modern user interface device range has everything you need to ensure clear guidance and make lifts as easy as possible for people to use.

Elegant

Authentic and true interiors

The finest materials and highly versatile accessories cater to the needs of sophisticated, intelligent, and environmentally conscious spaces, including high-rise structures, corporate offices, and premium residential developments. These solutions inspire architects, designers, investors, and developers striving to meet lofty standards in their projects, even if full customisation isn't required.

KONE Digital Experience Cars

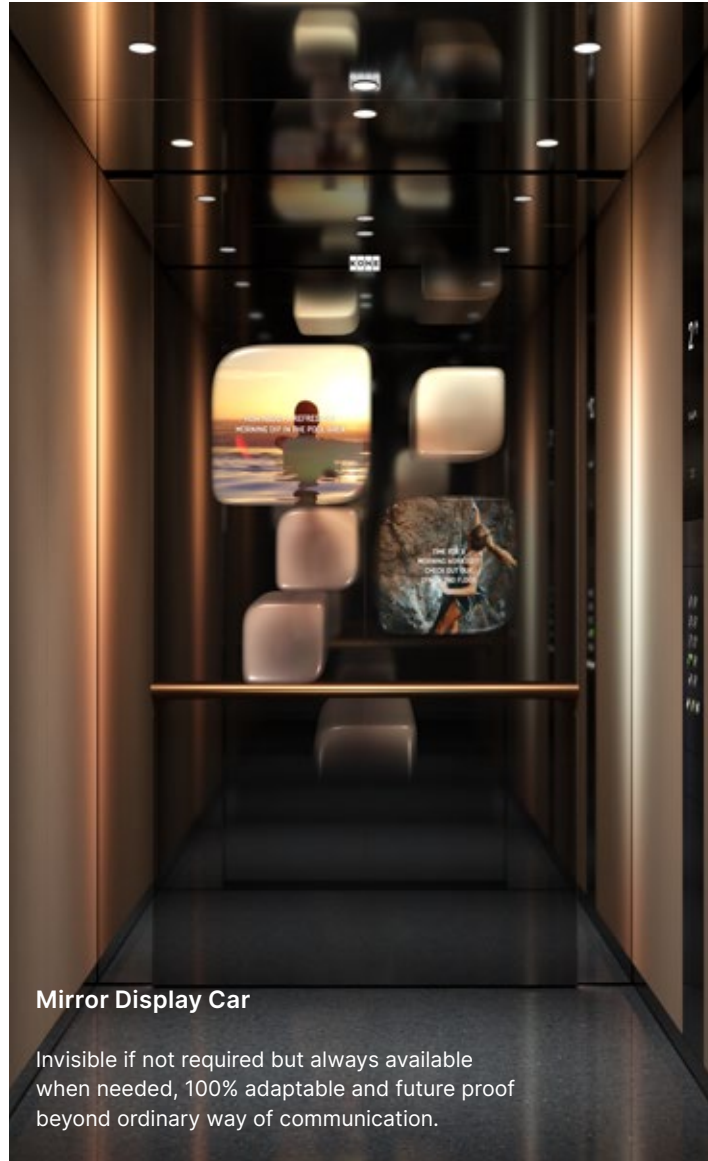

Sometimes the lift ride
is more than the destination

Enter a whole new world of multi-sensory experiences. With dynamic sound, vivid colors, and immersive themes, the KONE Digital Experience Car can be tailored to capture your attention or sooth your senses – create a unique journey for people in your building.

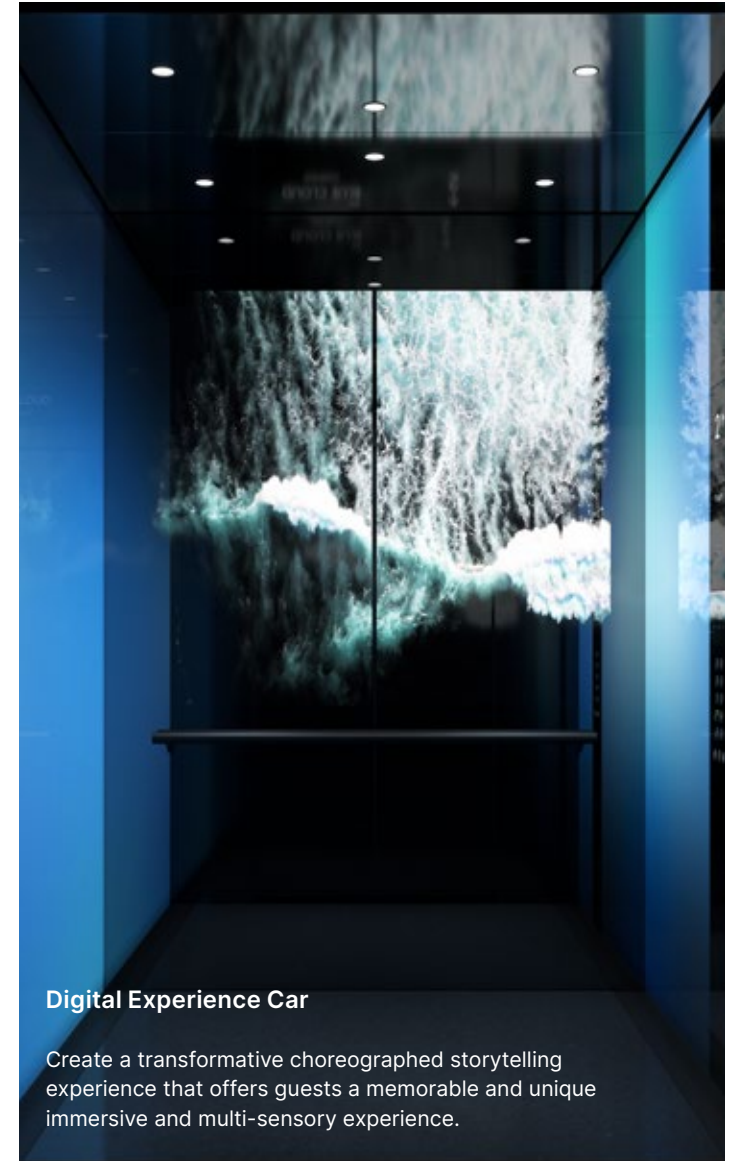

Aurora Car

Hybrid experience that is equally digital and physical, created through technology, driven by human needs.

Mirror Display Car

Invisible if not required but always available when needed, 100% adaptable and future proof beyond ordinary way of communication.

Digital Experience Car

Create a transformative choreographed storytelling experience that offers guests a memorable and unique immersive and multi-sensory experience.

KONE provides innovative and eco-efficient solutions for lifts, escalators, automatic building doors and the systems that integrate them with today's intelligent buildings. We support our customers every step of the way: from design, manufacturing and installation to maintenance and modernization. KONE is a global leader in managing the smooth flow of people and goods throughout buildings. This makes us a reliable partner throughout the life cycle of buildings. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE 24/7 Connected Services and KONE UltraRope®. KONE employs over 63,000 dedicated experts to serve you globally and locally.
